

Congratulations to Thai Students who won a Diploma of Excellence at Stockholm Junior Water Prize 2021

Mr. Thanawit Namjaidee and Mr. Future Kongchu from Damrongratsongkroh School won a Diploma of Excellence from the Stockholm Junior Water Prize 2021 on their Bio-Moisture-Nutrient Absorbing Belt project for promoting the Sugarcane Seedlings Growth from local waste. As part of the World Water Week, Stockholm Junior Water Prize 2021 was a great opportunity for Thai young scientists to exhibit their talents and innovation to create a sustainable future.
